

## *Alumna of the Year*

### Mindy (Gosney) Schwarz '85

Mindy (Gosney) Schwarz '85, has dedicated her life to the service of others since departing from the MBA campus nearly 27 years ago.

After leaving MBA, Mindy proceeded to California State University where she studied nursing, recreational therapy, and environmental health. This eclectic skillset came in handy when Mindy began participating in mission service trips to Mexico, Ecuador, and Chile with Maranatha in 2006-2008 and Fiji with the Quiet Hour in 2009.

However, it is her position as founder and co-director of Extreme Mobility Camps (XMO) for the Visually Impaired which gives her the most personal fulfillment. She and her husband, Bryan, founded XMO and adopted the motto "Seeing Christ Through the Blind."

Once camp begins, which is held every winter at Winter Park, Colorado, Mindy becomes counselor-extraordinaire, inspiring camp participants to find joy in life through Christ while skiing, snowmobiling, tubing, and ministering to others. It is the vision of Extreme Mobility Camps, Inc. to give its' participants a chance to experience activities not offered in their daily lives, regardless of economic status, and to offer this opportunity to visually impaired youth from all over the nation.

Mindy and her husband Bryan have a daughter, Marleigh, and a son, Bradon. They reside in Simi Valley, CA.

MBA is proud to recognize Mindy for demonstrating the love of Christ through her dedication and service to those with disabilities, while inspiring others to this cause, as well as her service to people in need around the world.
